Collectors Head West Sight-Unseen Market Mixed

As the collecting caravan heads towards the west coast, a close eye is being kept on the volatile precious metals, especially Gold. Current Spot for the yellow metal is $1,289, well below the $1,300 benchmark, which has been the case for nine trading days now. Silver is also in a slightly weakened state, struggling below $20 an ounce for nearly two weeks, with a Spot today of $19.53. Platinum stands at $1,425, and Palladium is very strong with a recent high Spot of $897. At just about $100K, sight-unseen trading over the electronic networks is quite soft, which could be a result of the Long Beach Expo being so close at hand, causing dealers to focus on staying liquid.

At least one dealer is targeting the 1885-CC in MS63 for both services as they are offering a higher sight-unseen Bid of $715 respectively. MS61 1893-O Morgan Dollars are needed in PCGS and NGC slabs as one buyer is paying over 3% more or $2,800 sight-unseen to get their hands on them as MS62 through MS65 are wanted at Bid. David Lawrence saw a gorgeous Gem 1888-S Morgan graded MS65 by PCGS pick up $2,500 in their weekly on-line auction, this having a pop 328 with 28 finer (3 in MS67). Semi-key date 1903-S and 1904-S are being sought after at full sight-unseen Bid in MS61 up to MS65 for both grading services as these are hard to pick up close to Bid when they are offered at auction. NGC graded Proof Morgan Dollars are needed in PR64 through PR67. Peace Dollars only have one minus sign to show for this week, a 1926 Philly graded MS63 in an NGC holder now at a Bid of $68.

A sight-unseen Bid of $25,000 is being offered to anyone who may have one of the 57, 1937-D 3-Legged Buffaloes graded MS65 by PCGS as these don't come around too often in this grade or higher. Heritage has a CAC 3-Legged Buffalo graded MS65 by PCGS for $31,500 which has a CAC pop of 22 at this graded level. Focus is once again on common date Mercury Dimes with the Fully Split Bands for any MS67 examples as dealers look to pay a higher sight-unseen Bid of $130. There are three PCGS declines: a 1917 MS64FB at $64, 1928 MS64FB at $64 and a 1941-S MS66FB at $37.

Silver Commems celebrating tercentenaries seem to have been targeted for discounting for NGC slabbed material. Connecticut, Delaware, Rhode Island, and 1920 Pilgrim issues all see drops in Bid with the lattermost getting rocked by 29%. PCGS mostly escaped the melee; however Maryland Commems did scale back to $150 Bid. On the flipside, later date Booker T. Washington, Wisconsin, and York Halves have broad sight-unseen support across all grades and both grading services.

Uncirculated Large Braided Cents and obscure Twenty Cent Pieces saw a moment of weakness as the latter slipped $10 down from our last report. Gold Type material lost its footing for a moment with several issues, mostly $10 Indians and $20 Saints, falling a bit. However, Liberty Quarter Eagles in PCGS MS65 dramatically shifted to the positive as they rose 22%! Trade Dollars climb $50 after a two week slump at $3,100 as Bidders shell out a little more for nice frosty PR65 examples.

Walkers see a round of gains as dealers clamor to put together Short Sets in Choice through Gem where sight-unseen Bid climbs as high as 8% with 1944 mintages leading the way. A rise in Bid for San Francisco varieties of this same year to $280 didn't quite catch the eye of at least one dealer who left some money behind as a piece just traded slightly lower. Some early 50's Franklin Proofs are edging up in PR65 and PR66.

The Ohio State Coin Show is coming up next, August 29-31 in Dublin, Ohio. Then it's time for the Pre-Long Beach auction by the Goldbergs beginning August 31. This same date is also slated for an auction by Bonhams. Both the Goldberg and the Bonhams sales will take place in Los Angeles. The Long Beach Expo, celebrating 50 years, is set for September 4-6 with a sizeable auction by Heritage (see highlights herein).

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Softening Blind Market
$4.5 Million For Bonhams & Goldbergs

Dealers have been in Southern California all week, enjoying the sunny skies and attending the Pre-Long Beach Expo auctions in Los Angeles. Bonhams held the first public sale on August 31 which brought in a total of just over $1.6 million with an 1879 $4 Flowing Hair Stella graded PCGS PR62, earning the top lot honors of $117K. Four other Stellas, also graded by PCGS, in various conditions from Details Gilt to PR45, realized a combined total of $273,780. Ira & Larry Goldberg were next with their Pre-Expo sale held August 31-September 2, which totaled over $2.8 million, with a few of the many highlights listed herein. This brings the grand auction total for all the numismatic firms we cover to $387,700,000 since January, an average of more than $11 million per week. Heritage, the official auctioneer of the Long Beach Expo is about to begin their sale as we go to press. Dealer set-up day went off without a hitch with participants competing for that first shot at new deals and old time collections which have been off the market for some time. Of course, everyone will be searching for fresh, original problem free material that's solid for the grade during the entire show. Not surprisingly, trading through the electronic networks is quiet, at $77K, as a result of all the preparation and action at the SoCal show. CoinSearch will be available at the Long Beach Expo, so those looking for a specific coin can use their mobile device and search for it using the CoinSearch app. Twenty-one dealers have listed over 8,000 coins as being available on the bourse floor. Spots remain a bit low with Gold at $1,265 per ounce, compared to this time last year when it was $1,390. Silver is lower as well, at $19 currently and $23.27 last year. Platinum has a Spot of $1,408, and last year it was at $1,495. Interestingly, Palladium is way up this year with a Spot of $891 compared to last year's $698.

"H" seems to be the new scarlet letter for Silver Commems. Although Hawaiians and Hudsons don't represent the largest drops, they do contain the widest ranges of minus signs across the grading spectrum for this issue. Declining the most were NGC slabbed Spanish Trail Halves in Gem and Monroes in Very Choice each losing 12%. If this seems alarming there is some relief that out of 32 minus signs reported for this segment 23 represent drops of less than 5%. Demand remains strong and unwavering for Classic Gold issues.

Mint State material is doing quite well with firm support for many PCGS and NGC issues and among many grades. Mercury Dimes remain solid overall with no real dealer discounting occurring, nor do we see any market-makers raising the bar. Around 25 Mercs designated as having Fully Split Bands sold through public auction this past week including no less than 7 examples of the 1944-D graded MS67FB by PCGS that realized between $129 and $147. Since consigners will likely receive a check for 15-30% less after auction fees, they would have done much better selling to the high sight-unseen Bidder for $130 each. The highest priced Merc to sell this past week at public auction was a 1940-D graded MS68FB by PCGS which realized $1,761. A single 1944 Merc graded MS66FB PCGS sold for $294 in an online auction last week. This is the best showing for a non CAC example of this date in just over two years for this pop 647 Dime. This series may soon receive some added interest on the news that the US Mint is considering a March of Dimes Silver Commemorative next year and a .9999 1/10 oz Gold Mercury Dime in 2016 celebrating the 100th Anniversary. After last week's round of gains, common Walkers retract a bit in Gem to a sight-unseen Bid of $87, a level not seen since May 2010 for both of the major grading services. Choice graded ANACS and ICG 1941-D issues meanwhile see an uptick.

At the resent Goldberg auction in Los Angeles a pop 75 with 4 finer 1888 Philly Morgan graded MS67 by NGC saw the winning Bidder fork over $6,755 for this cartwheel. Through the same auction a nicely rainbow toned pop 8 with 5 finer 1883-CC graded MS67★ by NGC took home $4,350. David Lawrence auctions saw a key Carson City 1893 graded MS62 by PCGS sell for $6,000. This is $1,100 more than what is being offered sight-unseen. In a past Stack's Bowers internet auction a beautifully struck 1881-CC graded MS65DMPL/Cameo by ANACS brought in $2,290. Also doing well through the web was a blast white 1882-CC graded MS66 by ICG picking up $795 through a past Great Collection sale. ANACS slabbed MS63, 1890-CC and 1891-CC are being targeted as one dealer is looking to pay a higher sight-unseen Bid of $550 and $500 respectively. Common date Morgans in NGC MS65 have hit a little bump as sight-unseen Bid is now lower at $123 this week.

A 1928-S Buffalo Nickel graded MS65/CAC in an old PCGS holder, with a CAC pop 14 and 3 finer, brought in a whopping $3,500 at a resent David Lawrence on-line auction. 1929 and 1934 Buffaloes in PCGS and NGC are seeing lower sight-unseen Bids of $190 and $180 in MS65.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

The CAC sticker helps identify a quality coin.

No Rest After Long Beach Expo
Precious Metals Weaken Further

Many dealers are still on the West Coast enjoying the weather and attending the Las Vegas Numismatic Society Fall Coin Show, running September 12-14, after their stint at the very successful Long Beach Expo. Most other dealers have headed home to attend one of the two dozen regional and local shows also taking place this weekend. Long Beach was quite a production, with plenty of attractions present, including a classic Ford Mustang displayed on the bourse floor. Pre-expo auctions from the Goldbergs and Bonhams added to the exciting ramp up to the large sale from Heritage, which brought in $13.4 million (see highlights herein). Sight-unseen trading over the electronic dealer-to-dealer networks is noticeably up this week to over $200K in recorded transactions. Precious metals remain in the dumps, with Gold closing at $1,237. The yellow metal hasn't been this low since the beginning of the year. Silver came in at $18.53, a level going back to late June of 2013. Platinum closed at $1,371, a low matched most recently in December of 2013. Palladium is down to $833, which hasn't been seen in six months.

1882-CC, 1883-CC and 1884-CC Dollars for both grading services are being targeted in MS65 as one dealer will pay a higher sight-unseen Bid of $410 for these Morgans. Also seeing demand in MS63 is the 1881-CC, now with a sight-unseen Bid of $470 for either PCGS or NGC examples. Speaking of 1881-CCs, a gorgeously struck one with a little tone having a pop of 4 with none finer graded MS68 by PCGS just sold for a whopping $25,850 at this past Long Beach show through Heritage. This is a registry set must have. Long Beach saw the winning Bidder fork over $23,500 for a beautiful pop 103 with 2 finer 1879-CC graded MS65 by PCGS. Having a CAC pop of 2 with none finer an 1882 Morgan graded PR68/CAC by NGC possibly broke the bank as the winning Bidder had to hand over $38,187 to take this treasure home. A first year 1921 Peace Dollar graded MS66 by PCGS sold through Heritage for $5,875. This cartwheel has a pop of 171 with 7 finer in this grade. There were also several Dollars that came up short at retail auction by selling for below sight-unseen Bid, for example: an 1888-S in NGC MS62 sold for $305 as sight-unseen Bid is $335, 1889-S NGC MS63 Bid is $300 and sold for $282 and a 1927 Philly Peace Dollar in MS65 with a sight-unseen Bid of $1,700 and sold for $1,645. Remember, the consigner will receive 18%-30% less than the price realized. Common date Proof-Like Morgan Dollars are seeing a little setback this week in MS63PL and MS64PL for both PCGS and NGC now Bidding sight-unseen at $95 and $125.

Silver Commems show a laundry list of declines with 1921 Pilgrim Tercentenaries in PCGS holders getting knocked down 25% in MS67. Gold didn't escape the minuses this time. Three Gold Dollars, all very brilliant MS67 pieces, slipped as much as 14% for 1917 McKinley Memorials. Type Gold, despite Liberty Eagles gaining 3% in MS61, saw a plethora of declines as Spot closed $28 lower than our last report. Support still remains comparatively resilient for Early Gold with Early Quarter Eagles commanding full Bid across the grading spectrum for both services. Silver Proof Type suffers as Liberty Seated and Barber pieces of all denominations lose a little steam in MS63 and higher. Trade Dollars are telling a different story as Very Choice issues from both grading services gain $100. While Gem Mercs with Fully Split Bands grab most of the attention, their non FB counterparts, along with those in Very Choice, are seeing the heaviest demand among the sight-unseen ranks, especially for early date material through the 1920's. A trio of Gem PCGS Mercs with Fully Split Bands and sporting the coveted gold colored CAC sticker, representing that the coins are under graded, sold through an internet only auction this week. The lofty results are: the 1943-S realized $170; a 1941-D hammered for $106 and a 1943-D sold for $78. Proof Mercs continue to spur dealers to sustain full Bid for many issues in Choice thru Gem. A few Walkers in the lower Mint State grades saw money left on the table after recent auction proceedings. This was more so the case for PCGS slabbed material. Key date 1919-D Walkers in NGC Choice have loosened up and settled down at $9,000, a level not seen since April of 2004. NGC graded PR65 Halves have blind Bids paying $420 for any example, but that didn't stop one dealer from giving one up for $38 less.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Premier PNG Show Coming Soon
Common Date Morgans Slumping

Precious metals remain weak, with Gold at $1,226 an ounce which is a low not seen since early January. Silver sank to $18.45 — a level that goes way back to late August, 2010. Platinum closed at $1,350; not since late December of 2013 has the metal been at this level. Finally, Palladium came in at $832, and it hasn't been this low since late June. As a result of the Fed saying that they would keep the short-term interest rates near zero for a "considerable time" the Dow closed at a record high of 17,156.85, setting a new record for the 17th time this year. Sight-unseen trading through the dealer-to-dealer electronic networks is about average at $127K.

With toning around the edges on both the obverse and reverse, a nicely struck pop 76 and none finer 1900-O Morgan graded MS67 by NGC is up for grabs through Heritage's internet auction which ends Sunday night. A variety of Carson City Morgan Dollars are seeing advances this week in MS63 and MS64. Stack's Bowers saw a disappointing outcome for a 1921 Philly Morgan graded MS66 by NGC which took home $388 through a recent on-line auction as there is an active sight-unseen Bid of $440 being offered. Common date Morgan Dollars with the MS66 grade in PCGS and NGC slabs are readily available as Bids are now down to $210. Also with a similar look is the CAC, PCGS+ and NGC+ graded Dollars all seeing lower sight-unseen Bid levels for the common dates. Sight-unseen Bids of $35,000 and $60,000 are being offered to anyone who may have a 1937-D 3-Legged Buffalo graded MS65+ and MS66+ in PCGS holders. The majority of CAC graded Buffaloes are being targeted at full sight-unseen Bid in MS64 and MS65 for 1913 Type 1 through 1938-D.

Spanish Trail Commems rise back up to $1,130, a four-week high for PCGS examples. Pan-Pac and select Oregon Trail Halves push higher as well with the former tacking on $50. Uncirculated CAC stickered Type is rock solid. Proofs are also dominated by demand for slabs with green beans. For Mercs, it's all about the highest quality piece dealers can get their hands on and will keep Bid aloft as a sign of unwavering demand. One auction consigner, however, seemed to be tuned out after letting go of a 1944-D graded MS67FB for only $93 in spite of the fact that sight-unseen Bid is 40% higher. Support at full Bid for Walkers generally seems to shift in favor of the lower Mint State grades for earlier dates. Very Choice Halves are enjoying widespread sight-unseen Bidding for many common, semi-key and key dates. However, adding a green bean to those earlier dates sends the support clamoring up through MS66.

Gold Type continues to suffer as Spot spirals down in value. Over 20 declines pepper the Bid columns with the most serious drop recorded for Type One Gold Dollars in PCGS MS66, losing some 5%. What may be more disturbing within this segment is the constant disconnect between buyers and sellers over the electronic dealer-to-dealer trading networks. One of the larger wholesalers often has one division of the company selling material for less than another department within the same company offering to pay sight-unseen. This week's examples include NGC $2½ Libs being offered in MS67 for $2,700 while the same dealer is offering to pay $2,800. Another example can be found in Type One Gold Dollars where NGC MS62 product is readily available for $400, yet sight-unseen buyers are still waiving $440 for the exact same material. This unfortunate scenario is not only present within Gold, but select examples can also be seen in Silver Type, both Proof and Mint State. Confirmation of this information along with numerous examples of coins being sold at public auction for less than sight-unseen Bid is available within the Market columns published the 4th week of each month.

Dealers are busy attending local and regional coin shows this weekend in places like Gettysburg, PA and Santa Clara, CA September 19-21. The following weekend, the last for September, regional shows will be held in Orlando, FL and in Fredericksburg, VA among others taking place September 26-28. A PCGS Members Only show is coming up October 1-4 in Las Vegas with an auction by Legend, October 2 at the Bellagio, featuring the Sunnywood Collection of toned Morgan Dollars, see some highlights herein. October 9-11 is slated for the first annual PNG New York, New York Invitational, an odd name considering the public is welcome and the fact that dealers do not have to be PNG members nor invited to obtain a table at the show. This show will be located at the Millennium Broadway Hotel, within a half block of Times Square. Heritage and Stack's Bowers will both host their own auction at the show. Heritage's auction includes the La Jolla Lady's Collection, the Pannonia Collection, Part 2, and The Valley View Life Collection, Part Three. Stack's Bowers' auction will feature the Gold Dollar collection of Milt Tretiak.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

CERTIFIED COIN DEALER newsletter

*CCDN—a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXIX No. 39 | September 26, 2014 | Single copy price $5.00

Busy Autumn Ahead Sight-Unseen Market Soft

Dealers are back from recent local and regional shows and are not resting much before attending the upcoming shows and auctions sure to test the rare coin market. For example, next up is the PCGS Members Only Show October 1-4 in Las Vegas with an auction by Legend on the 2nd. For some dealers, things have been a bit sluggish coming off of the summertime slowdown and precious metal weakness. Gold closed today at $1,221. Silver is way down to $17.38 an ounce, a four-year low not seen since June of 2010. Platinum finished at $1,314 and Palladium at $803. Though these numbers are a little anemic, and the stock market has dropped rather rapidly, with the Dow falling nearly 265 points today, at least the onset of what appears to be a busy autumn should get things rolling faster in the right direction. Transaction volume on the dealer-to-dealer electronic trading networks is about at par with a total of $115K in sight-unseen trades this week.

A handful of PCGS certified Superb Gem Classic Silver Commems traded at Bid this month, while an NGC Monroe Doctrine in the same grade sold at auction some 5% below Bid. Conversely, Mint State 67 examples have fared well, with no less than 37 coins realizing well over Bid at auction, led by a PCGS-CAC graded Vermont Sesquicentennial, a coin with a current pop of 32 with just one finer, which brought a staggering 68% over blind Bid for a non-stickered coin.

Dealers are going after 1890-CC Morgans in grades MS62, MS63 and MS64 and are paying higher sight-unseen Bids of $530, $730 and $1,250 respectively. A CAC pop of 30 with 4 finer, 1890-CC graded PCGS MS65/CAC will look to make some noise at the PNG show and auction New York. A poor outing took place for an 1885-CC Morgan Dollar graded MS63 by PCGS at a past Stack's Bowers internet auction leaving $40 on the table as there is a sight-unseen Bid of $715 being offered. This and the latest Auction results, Trades and Asking prices can be seen in this week's Market column. Common date Morgan Dollars in NGC slabs graded MS65 are seeing a bit of a setback as sight-unseen Bid is now lower at $110. Dealers are still in need of quantities of Gem generic PCGS Morgan Dollars and are paying 30% more than for NGC product. A similar scenario is occurring within the MS66 grade column with sight-unseen Bids for PCGS plastic some 22% higher than for the same coins encapsulated by NGC. Making use of the recent PCGS crossover promotion within this segment of the market appears to have been a good play. Also having a similar result are Peace Dollars graded MS65 by PCGS and NGC now at sight-unseen Bids of $100 and $98. With great eye appeal and having a pop 54 with none finer, a 1923 Peace Dollar graded MS67 by PCGS will soon be up for grabs at auction in New York.

At a recent Great collections internet auction a beautifully minted 1937-D 3-legged Buffalo graded PCGS MS63/CAC brought in a nice dollar amount of $4,510, with this having a CAC pop of 47 and 58 finer. Heritage will be showcasing two gorgeous 1913 Type 1 Buffalo Nickels in New York both graded MS68 with one in a PCGS holder having a pop of 14 and none finer and the other in an NGC slab with a pop of 11 and none finer. Bidding activity for Proof Halves has picked up and has carried Barbers a little higher to a sight-unseen Bid of $1,340 marking a two month high and a gradual recovery from an early August drop. Proof Seated Dollars with Motto in PCGS slabs settle to a two year low to match NGC counterparts at $4,600. Uncirculated Silver is mixed with losses narrowly outpacing gains in a manner somewhat mimicking Proof Type as Barber material advances while Liberty Seated material slides. Highlighting the rise, Dimes in NGC MS62 venture up another $10 from last week to Bid $120 sight-unseen causing extra pain for one dealer who just sold for $100. Exceptionally, Barber Quarters in NGC MS66 also slid with a 13% drop to $1,050. Selling short at auction, viewable in this week's Market column, was a couple of 1942-D Mercs in MS67FB. With a solid sight-unseen Bid of $130 posted for the grade, one PCGS piece sold for merely a dollar short while an NGC example sold egregiously low at only $103, missing out on a 26% higher payout. Pain in the MS67FB grade column did not end there as 1938 pieces from Denver and Philadelphia also saw drops with the former landing at $140. A beautiful 1919-S Walker graded MS65 by PCGS, offered by Stack's Bowers will be crossing the auction block at the upcoming inaugural PNG Invitational in New York. This will be Stack's first offering in almost a year (November 2013) for this pop 59 Half with only 26 examples finer. PCGS Proof Walker singles continue a downward trend from last week declining another $20 in PR66. Several Liberty Gold denominations in the lowest Mint State grade of MS61 lose a little altitude with Spot continuing to stay low at $1,221 an ounce. Overall, Double Eagles in general claim losses across most Mint State grades.

Heritage will host an auction October 8-9 and 12-13 in New York, NY as part of the PNG Invitational show, see highlights herein. Stack's Bowers will also have an auction October 10 and 14 at the same show. October 16-18 is slated for the Silver Dollar & Rare Coin Exposition in St. Charles, MO, with dealer setup on the 15th. Scotsman will perform the auction honors for this show on October 16th.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, [illegible] and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that [illegible] has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (*w*eek old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; **lm** – Lowest asking price appearing *l*ast *m*onth "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; a blank, for all Market prices older than two months; "**a**" for auction transactions, "**oa**" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN albeit on a sight basis.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

"CC" Dollars Sought Lower Blind Bids Abound

A handful of dealers are on their way back from the Bellagio in Sin City after attending the PCGS Trade-N-Grade and Legend auction, October 1-4. New York City is the place to be next week for dealers and collectors as Stack's Bowers and Heritage will each host an auction at the inaugural New York PNG Invitational show. October 10 and 14 are slated for the Stack's Bowers sale, and we have included some of the many highlights herein. Heritage's sale is scheduled for October 8-9 and 12-13. All are crossing their collective fingers that the weakness in precious metals won't have a negative impact on the show. Gold closed today at $1,214, 8% lower from a year ago when the yellow metal was $1,321. Silver settled at $17 an ounce, a low not seen since March of 2010. A year ago, Silver was 26% higher at $22.98 and has spiraled down since then. Platinum's Spot is $1,270 and Palladium shut down at $769. Trades over the electronic exchange networks finished the week off fairly strong with $260K in sight-unseen transactions.

A handful of Classic Silver Commems passed through weekly online auctions hammering for below sight-unseen Bid. Not surprisingly, each of these coins shared a similar trait: that is, they all had mottled, darker brown and yellow toning, emphasizing the fact that buyers continue to be strict about eye appeal. Indeed, this week two 1925 Lexington-Concord Sesquicentennials, both graded MS65 by PCGS realized prices that were nearly 40% apart from one another on this principle. In Classic Gold, we see a 1922 Grant Memorial Gold Dollar offered for a bit less, but the sector remains strong overall.

A usually sought-after Type, an 1873 With Arrows Liberty Seated Dime graded MS65 by NGC, with a pop of just 17 and five finer, displayed mediocre results in a recent internet sale, realizing $2,585. Prior to this, the last two examples of this issue sold at public auction back in August of 2013, one graded by PCGS and realized $3,466 and the other an NGC which hammered for $2,596. To date PCGS has encapsulated 12 at this grade level also with five graded finer.

Original GSA Dollars with NGC wraparound tamper evident grade labels are sought-after with dealers looking to pay at or near Bid. Two ungraded GSA Dollars in original box and with certificate are being actively targeted: an 1880-CC Rev 78 now at a sight-unseen Bid of $500 and an 1882-CC at $205. Select Carson City Morgan Dollars are also needed in various dates and grades at higher sight-unseen Bids for PCGS and NGC. ANACS and ICG are seeing similar results for 1880-CC Rev 78 in MS63 now at sight-unseen Bids of $495 and $485. PCGS and NGC are both seeing a little setback for common date Morgans in MS63 and MS64 as NGC cartwheels are also dipping in MS66 and MS67. A 1900-O Dollar graded MS66 by NGC sold for $270 in a past Stack's Bowers on-line auction which is $35 less then what is being offered sight-unseen.

A nice looking 1923-S Buffalo graded MS65 by NGC brought in $4,840 in a recent Great Collections internet auction. The last two Gem examples of this date in NGC plastic to sell at public auction took place in mid-2013 and realized $4,553 and $4,700. Eight MS65 examples in PCGS plastic have sold at auction so far in 2014 and have realized from a low of $6,169 to a high of $8,813. This Buffalo Nickel has a combined pop of 80 with a dozen graded higher.

Mercury Dimes see some offloading with MS66 Full Banded material falling 8%, but NGC Superb Gem 1945 pieces took a knock four times as harsh with a 32% drop after eleven months at a sight-unseen Bid of $100. A beautifully rainbow toned 1923-S graded PCGS MS65FB, with a combined pop 48 Dime with only six finer, will cross the block in Heritage's PNG invitational auction. On that same note, upcoming excitement in the Big Apple will have dealers scrambling to take part in Bidding for some beautiful Walking Liberty Halves. Just over 200 lots will be offered between the two auction houses with Heritage commanding the lion's share. One important offering will be a 1920-S graded PCGS MS66. This is the first time since March 2012 that Heritage has put this date up for Bidding and the first PCGS example up for grabs since November 2008, nearly six years ago. Common dates pull back modestly in Gem for PCGS, NGC and ICG slabs, but Proof Walkers in PR66 and 67 gather strength with 1942 leading the way with an 11% gain.

There will be little chance to catch one's breath as the Silver Dollar & Rare Coin Exposition will take place October 16-18 in Baltimore, MD. Scotsman will do the auction honors at this show on the 17th. Running from the 23rd to the 25th is the Pennsylvania Association of Numismatists (PAN) Fall 2014 Coin Show in Monroeville, PA. Next is the 42nd annual Whitman Coin & Collectibles Baltimore Expo October 30-November 2 with an auction by Stack's Bowers. In addition to the above-mentioned shows, there are multiple local and regional expos scheduled throughout October to keep collectors and dealers very busy.

CERTIFIED COIN DEALER newsletter

*CCDN—a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXIX No. 41 | October 10, 2014 | Single copy price $5.00

Generic Silver Dollars Slump Precious Metals Rebound

Dealers are now in New York City, trading amongst themselves and preparing for the inaugural PNG Invitational Show scheduled for October 9-11, with auctions by Stack's Bowers and Heritage. This is the next adventure coming off of the PCGS Members Only Show where Legend held a 255 lot auction that realized $3 million. Nine coins received over $50K, and the average paid for each lot was $11,764. The top lot for this sale goes to an 1893-S Morgan Dollar graded PCGS MS65 CAC which sold for over $640K. So far this year, the major numismatic auction houses have brought in a total of over $407,820,000. Certified Coin Exchange's electronic trading network demonstrated a fairly strong last week of activity for sight-unseen transactions, totaling $393K. For the first three quarters of 2014, the weekly average was $121,359. The first three quarters of 2013 had a weekly average of $289K, and 2012 averaged just over $286K per week for their first three quarters. Precious metals all moved higher this week, with Gold closing at $1,225; Silver at $17.37; Platinum settling at $1,278, and Palladium coming in at $800.

Wisconsin Centennials suffer a bit more in PCGS Gem this week following weak online auction results. These coins are now off nearly 50% from the high they saw in 2006. 1935 Texas PDS set continues to be discounted as the demand does not seem to be there for the three coins graded MS67 by NGC. A few $1 Gold Commems were offered for sale at Bid in the past week, indicating the desire to move such coins out of inventory. There are active Bids across most Mint State grade levels for a variety of issues, including Red & Brown Indian Cents, Red & Brown Two Cent Pieces, and both types of Shield Nickels. Fewer declines are seen in Gold Type as the Spot price has leveled out in the past week of trading, but some issues are still being offered or sold at Bid or below, including Mint State 67 $2½ Liberty's in NGC holders.

At least one dealer is offering up a new high sight-unseen Bid of $35,000 for one of the seven 1921 Peace Dollars graded MS67 by PCGS as none of them have been on the market or up at auction recently. Half a dozen beautiful rainbow toned Morgan Dollars graded PR67 and PR68 by PCGS and NGC will be up for grabs through Heritage on October 27 in New York, which is part of The Eugene H. Gardner Collection II. Legend saw a rustic looking Gem with a CAC pop of 4 with none finer 1895-O graded MS65/CAC by PCGS bring in a whopping $258,500 in their past auction in Las Vegas at the PCGS Members Only show. Also doing well from the same auction was a nicely golden tone CAC pop of 1 with none finer 1892-O Morgan graded MS67/CAC by PCGS taking home $111,625. Generic Proof-Like Morgans took a hit this week for both PCGS and NGC in MS63PL through MS65PL which can be seen on Supplemental Page E. A 1935 Peace Dollar graded MS66/CAC by PCGS with a CAC pop of 37 and none finer did very well in a recent David Lawrence on-line auction picking up $3,000. Common date Peace Dollars for both grading services are being offered at lower levels resulting in discounted Bids in MS63, MS64 and MS65 at $30, $42 and $92, respectively. Heritage will hope to see Bidding wars for two gorgeous Proof Buffalo Nickels: a 1914 graded PR67/CAC by PCGS and a 1936 Type 1 Satin Finish graded PR67/CAC by PCGS. These examples have a combined pop of 100 with 13 finer and will be offered in New York October 27th.

A couple of rough spots show up for Mercs in MS66FB with some modest declines of less than 10%. Sight-unseen action is clustered around select later dates in NGC MS67FB. A group of seven lustrous Winged Liberties of various dates were featured in Legend's recently completed Regency IX sale, five of which adorn CAC stickers including two also sporting Plus signs confirming their supreme quality. Rarest of them all was a 1928 in PCGS MS67FB, ironically one that has neither of these extra features but shows a combined pop of merely 38 with three finer. It sold for a respectable $1,586 marking the first sale since last August for this date, grade and mint.

Walkers have a bipolar look about them this week as Mint State examples see a downturn for generics in MS64-MS66 with some dates dropping as much as 12% and at 32 pieces lower, also contain the highest number of minus signs for all of 2014 thus far. Proof Singles on the other hand shine Walkers in a different light, one that is bright and positive. Proofs from PR65 thru PR67 climb up 13% in some cases. Full Bell Line Franklin Halves spoil the fun a little bit with some examples dropping. However, the drops are fewer than in our previous report and 1949-S Franklins in NGC MS65FBL score a massive 54% gain to a new Bid of $200! Saints drop modestly across-the-board reflecting a slightly weaker Gold Spot.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ $50,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Sight-Unseen Market Sluggish Multiple Auctions On Horizon

A successful PNG show and rising precious metals have put dealers in a decent mood. Heritage scored at the New York gala with an auction total of well over $11 million, with the top lot honors going to an 1870-CC $20 Liberty graded PCGS VF20 bringing in $188K. Next in line was an 1879 $4 Flowing Hair Stella, with a grade of PR64 CAC by PCGS, selling for $165,675. Rounding out third place was a 1796 Draped Bust Quarter graded PCGS MS64, crossing the auction block for $164,500. An additional three examples sold for six figures in this auction, making for a total of six in this category. Stack's Bowers finished their auction with a total of $1,645,245. The rare coin caravan is now in St. Charles, MO for the Silver Dollar Expo running until the 18th with an auction by Scotsman. Recently, the electronic trading networks have been doing comparatively robust business, but the last week has been slightly soft with a total of just over $155K in sight-unseen transactions. Silver and Gold moved higher this week, with Gold closing at $1,241and Silver at $17.39 per ounce. Platinum settled at $1,252, further closing the gap with Gold, now down to just $11. The difference between these two metals hasn't been this narrow since April 2013. Palladium fell to $746 per ounce, nearly an eight month low.

Soft auction results bear out a slew of minus signs for Classic Silver Commems. It has been theorized by some that having two medium-sized auctions over the course of a new show was more than the market could absorb, therefore allowing some coins to fall through the cracks. Two rarely seen Isabella Quarters appeared last week, both of which have the numerical grade of 64. The first, a Proof striking, of which 104 were originally minted and now only count a population of 49 combined, realized a healthy hammer price of $5,288. A premium was also paid for the second coin, designated as Proof Like by NGC. One of 114 so graded, it brought $1,998.

Mint State Type Coins that may be solid for the grade technically but are darkly and/or unevenly toned continue to sell below market in public auctions. Such coins are ones that a dealer must be prepared to take when trading sight-unseen. Two attractive Liberty Seated coins were relative bargains at last week's Heritage sale: an 1853 Half Dime With Arrows in NGC MS67, with an NGC population of 23, and an 1837 Liberty Seated Dime, No Stars graded NGC MS66, with a combined population of 28. Through a recent Stack's Bowers sale, a pop 59 with 2 finer 1879-CC $1 graded MS65 by NGC brought in $19,390. Also sold at the show, through the Heritage auction, was a gorgeous frosted white pop 27 with none finer 1934-S Peace Dollar graded MS66 by PCGS taking home a whopping $23,500. A nice rainbow toned pop 10 with none finer 1904 Morgan graded MS66* by NGC will be on the auction block through Heritage on October 27 in New York, part of The Eugene H. Gardner Collection II. 1884-S cartwheels with CAC stickers in MS64 and MS65 are wanted at higher sight-unseen Bids of $115,000 and $225,000 which can be seen on Supplemental Page G. With a $15,000 jump in Bid is an 1893-S Morgan in PCGS MS64+ now at a sight-unseen Bid of $225,000 also can be seen on the same page.

A 1921 Mercury Dime graded MS65FB with a green bean attached garnered $7,050 at a recent New York auction. This represents a new all-time best auction price realized for this pop 129 key date with 77 finer. However, given that only 13 of these Gem slabs also adorn CAC stickers, with 12 finer, this exquisite example is in reality rarer and has deservedly commanded a much higher price than previously seen. A few minuses are present for a duo of San Francisco Walkers in NGC slabs as well as first year Philadelphia pieces in the higher Mint State grades. Weakening in higher graded material persists in this segment with many examples declining. This week though it is the earlier dates in Gem which have been hit, albeit less harshly than last week's major slip. An unfortunate soul missed out on profit upon parting with a 1944-S Half graded PCGS MS65 for only $247 at auction while sight-unseen Bid sits at a solid $280, a 13% shortfall. That seller was not alone as another dealer took a loss on selling a 1933-S $28 short of Bid at $852.

Whitman Coin & Collectibles Baltimore Expo, celebrating their 42nd year, will finish off this busy month and start the next with a show running from October 30-November 2. Stack's Bowers will handle the auction for this expo October 29-31 and November 4. Heritage will conduct Part II of the Eugene H. Gardner Collection on October 27 in New York, see highlights herein. November 6-10 is slated for a Beverly Hills auction by Heritage, and selections from the Eric P. Newman Collection Part V will be auctioned off by Heritage in New York, November 14-15.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

Market Activity Cools
Dealers Prepare For Fall Shows

Packing up and heading to St. Charles, MO turned out to be fruitful for dealers and collectors as the Silver Dollar Rare Coin Exposition wrapped up on the 18th with a successful auction from Scotsman totaling $1,115,119. Adding to that positive result, precious metals seem to be on the mend. Gold has spent most of the week above $1,240, and Spots have generally been climbing slowly upward over the past several weeks. The yellow metal did slip a little Thursday, falling to $1,229 an ounce. Silver has been on a bit of a rollercoaster, but has at least remained above $17 an ounce for the last month. Though the sight-unseen market in general has been a tad soft lately, dealer-to-dealer sight-unseen trading has been decent on the electronic networks, with a total of just over $200K in the last week. Good economic news can be good numismatic news as the Dow recovered in a big way, gaining over 200 points from Wednesday's fall. This boost came in part as a result of initial jobless claims which came in at 281,000 – the lowest since May of 2000. Wednesday's snag, which broke a four-day winning streak, was due in part to a drop in the price of oil and the terrorist activity in Canada.

A 1936 Delaware Tercentenary graded NGC MS65 passed through an internet weekly auction last week with a hammer price of just $118 against a sight-unseen Bid of $200. The coin in question is not unattractively toned or spotted, so Bidders either perceived the coin to be over-graded or the demand simply was not there. A noteworthy highlight from upcoming public auctions is the 1915-S Panama-Pacific Expo Half Dollar formerly in the collection of John J. Pittman, graded MS67 by NGC. There are none finer graded by NGC and just 3 finer at PCGS. Another is a striking 1936-S Oregon Trail, certified NGC MS68★. One of just three coins given the Star designation, there are none numerically finer at either NGC or PCGS. Type 2 Standing Liberty Quarters see a modest decline in Choice and Gem PCGS holders as a result of the past week's auction results. In the upcoming Heritage Beverly Hills auction an 1806 Draped Bust Half Dollar (Pointed 6, With Stem) in an NGC MS64 slab goes to the block. With a combined population of 15 and 13 finer, this is a quintessential Type coin, combining both technical quality and an elegant look. Both Type One and Type Three Gold Dollars in multiple grades are offered for sale at a lower level this week (indicated by the "w" in the market column).

Hoping to bring Bidders to the table in Baltimore, Stack's Bowers will attempt to find a new home for an 1882-S Morgan graded MS68/CAC by PCGS with only 28 wearing the green bean sticker. A dark rainbow toned pop 8 with 1 finer in MS68, 1884-CC GSA Dollar graded MS67+ by NGC will look to be a new addition to someone's collection after the Stack's Bowers Winter sale. A half dozen MS65 semi-key date Morgan Dollars in PCGS holders are seeing lower sight-unseen Bids due to a lack of support at auction. $107 is what was left on the table for an 1878-CC $1 graded MS61 by NGC at a recent Great Collections on-line sale, as there is a sight-unseen Bid of $355 being offered. Auction results such as this and many others can be seen in this week's Market columns which are published the fourth issue of each month providing useful information, not available in any other publication. Common date NGC Dollars in MS64 are being targeted at higher sight-unseen Bids of $53 as are the MS65 graded PCGS slabbed Dollars Bidding $140. Great Collections saw the winning Bidder of a 1928 Philly Morgan Dollar graded MS63 by PCGS fork over $750; this is $25 less than sight-unseen Bid.

Having a gorgeous rainbow tone on both sides and a pop 30 with 6 finer, a 1914-S Buff graded MS66 by PCGS will be up for grabs in Baltimore through Stack's Bowers Winter auction. Also through the same sale is a stunning golden toned 1924 Nickel graded MS66 by PCGS with a pop of 96 and 8 finer. Two attractive Buffaloes picked up a hefty amount at auction: a 1926-D graded MS64 by NGC taking home $1,450 through a David Lawrence auction, and a 1927-S graded MS64 by NGC picking up $2,645 at a Scotsman sale. A few higher graded Full Banded Merc examples take some steep drops for those in Very Choice or better, mostly restricted to pieces from the late 1930's. Hardest hit was 1939 in MS66FB where NGC slabbed varieties fell 28% while those marked PCGS took a 34% nosedive to a new Bid of $82 after some painful auction results. Exceptionally, 1917-D Dimes in PCGS MS64FB slabs had the largest loss dollar-wise, scaling back by $100, the first drop for this early date since December 2011. This date is but an aberration within earlier Mercs which are dominated by full sight-unseen Bidding in the lower Mint State grades. Walker Halves took a few spills as well but not nearly as harshly. Losing the most were 1937 examples in NGC slabs with a 12% decline in Gem. Other pieces heading down are only modest declines of less than a tenth of their Bid. Quarters take the majority of the beating among the Proof Singles but in the case of Dimes the story is one of robustness. Even though someone walked away leaving money on the table for a PCGS 1937 Proof Merc after parting with it for only $410 while sight-unseen Bid was $70 higher, this segment shows stability with Winged Liberty singles receiving full support from dealer-to-dealer online trading.

The next few weeks have plenty of auction action as the 27th is slated for the Heritage sale of the Eugene H. Gardner Collection, Part II in New York. Next is the Stack's Bowers Winter 2014 Baltimore Auction as part of the Whitman Coin & Collectibles Baltimore Expo scheduled for October 30 thru November 2. Heritage strikes again on November 6-7 and 9-10 in Beverly Hills for a US coin sale.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" - Lowest asking price during the week prior to publication (week old); "**m**" - Lowest asking price during the previous three weeks (*m*onth old); "**t**" - *T*rade during the most recent month; **lm** - Lowest asking price appearing *l*ast *m*onth "**lt**" Trade appearing *l*ast *m*onth; "**ot**" *T*rade *o*lder than 2 months; a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Verify Your Stickered Coin!

You can use the online CAC Verification Search feature to check the CAC database for ALL coins that CAC has stickered .

Data for each stickered-coin is compiled in CAC's secure database. You can use CAC's FREE online tools to easily verify your stickered coin. What's more, you have access to CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, FREE, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

Baltimore Expo Underway Fed Talks And Metals Drop

Dealers are currently in Maryland attending the Whitman Coin & Collectibles Baltimore Expo. Now celebrating its 42nd year, the expo runs from October 30 through November 2. Stack's Bowers is holding an auction in conjunction with the show October 29-31 and November 4. This auction offers multiple collections, including the following: Raymond Dillard, William Gleckler, George Gund III, Stu Keen, The Strong, and the William Tabachnik. Buyers are having quite a time with the overload of auctions so far this year. Currently, the companies we track have managed a combined total of $438,047,618 in prices realized. The Eugene Gardner Part II auction, held by Heritage October 27 in NYC, brought in $13.7 million. Heritage has another auction scheduled for November 6-7 and 9-10 in Beverly Hills featuring Early American coins through Modern Errors. Gold made a major move lower in large part as a result of the Fed's decision October 29 to end its quantitative easing bond buying program. The yellow metal closed at a three-week low of $1,224 per ounce on Wednesday immediately following the FOMC statement release, then plummeted much more significantly the next day, closing at $1,198 per ounce, a low dating back to December of 2013. Silver dropped to $16.39, reaching a new low not seen since early March of 2010. Platinum and Palladium also fell, the former landing on $1,246 and the latter ending up at $780. In spite of this precious metal volatility, sight-unseen trading is fairly solid over the electronic dealer-to-dealer networks, bringing in well over $200K in transactions in the last week.

Several Classic Silver Commems in the lower Mint State grades come under pressure this week, led by the 1936 Bridgeport Centennial in PCGS Mint State 61. Other decliners include the Cleveland Great Lakes Expo, Iowa Centennial, and Texas Centennial, all a result of weak auction performances. Within Classic Gold Commems, MS61 Sesquicentennial $2½ pieces are now Bid at $345, which is a bit more than double the melt value of the coin. To date, nearly 600 have been encapsulated by NGC and PCGS combined. These Quarter Eagles were as low as $225 in January of 2002. An NGC graded MS67 Louisiana Purchase/Jefferson Gold Dollar, population 92 with only 1 finer comes up for sale in the Newman Part 5 auction November 14-15 in New York.

With all the excitement focused on the Gardner Part 2 sale which was held this week, many eyes have been on early Silver Type. Several market commentators have opined that this collection will become a reference point for 19th century Silver Type. Draped and Capped Bust coinage is strongly Bid, and one of the few declines seen in this market segment this week is for Gem Trade Dollars graded by NGC. An 1877-CC Liberty Seated Dime, a certified MS67 PCGS/CAC coin with a population of just 5 with none finer is offered in next week's Heritage sale, along with a stunning 1870 Proof Liberty Seated Dollar that merits a grade of NGC PR67★ and is the single finest known. Through a Great Collections on-line sale last Sunday, a lightly toned semi-key 1896-O Morgan Dollar graded MS63 by PCGS hammered home $6,335. Six other examples of this date and grade sold at retail auction this year, realizing a range of prices realized from $5,581 to $14,100. Also performing pretty well in a Stack's Bowers internet auction this week was a yellowish toned 1928 Philly Peace Dollar graded Very Choice by NGC, which realized $1,116. The last recorded public sale was for a PCGS example that realized $1,056 earlier this month. There were some Morgan and Peace Dollars that saw money left on the table by selling for less than sight-unseen Bid, one example being an 1878 8TF $1 graded MS63 by PCGS bringing in a paltry $182 in a recent internet sale. This is $28 less than what a Bidder is offering sight-unseen. In a Stack's Bowers weekly auction ending November 2, a gorgeous 1928 Peace Dollar graded MS64 by PCGS will look to find a new home. A beautifully struck and a CAC pop of 92 with 1 finer, 1880-S Morgan Dollar graded MS68/CAC by PCGS will hope to bring some serious Bidders to Beverly Hills when Heritage hosts their next Signature Auction November 6-10.

Select Mercury Dimes in Superb Gem take a double-digit dive, declining by as much as 25% from our last report. On a much sweeter note, dealers in Baltimore look to Stack's Bowers Rarities Night for a prime 1942/1 piece of eye candy graded MS66FB by PCGS, tied with five other examples as the finest certified by PCGS. Seems a bit frightening that no less than a half-dozen Winged Liberty Dimes certified by PCGS/NGC as MS67FB sold through public auction this past week for as little as $90 or 31% below sight-unseen Bid which stands at $130. With Walkers the story is similar. A smattering of higher graded Halves are experiencing a bit of light turbulence with 1937-D pieces from both services cruising down 10% in MS66. A 1920-S Buffalo graded MS63 by PCGS did well in a recent Great Collections internet auction bringing home $1,727 for this pop 123 Nickel. The last two PCGS specimens in this grade to sell at auction, realized $1,528 and $1,410 in July. A whopping $1,700 is what the winning Bidder paid for a rainbow toned 1927-D Nickel graded MS64/CAC by PCGS through a David Lawrence online auction. Heritage's upcoming Beverly Hills auction looks to showcase a 1937-D Three-Legged Buffalo graded MS64+ by PCGS, a beautiful pop 4 example with only 4 graded finer.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Stack's Bowers Brings In $10.5 Million In MD
Walkers See Shortfall

The Stack's Bowers Baltimore auction which took place over the last week realized more than $10.5 million. Taking the top lot within US coins was an 1853-O No Arrows Liberty Seated Half Dollar, bringing in $246,750. This piece is one of only four known, and is graded by PCGS as G6, with a CAC sticker. Coming in second place was a Liberty Seated Dollar dated 1853 and graded PCGS MS66, CAC, which crossed the block for $129,250. Third position belongs to the Floyd Starr 1853 Liberty Seated Proof Dollar, which has a grade of PR66/CAC by PCGS, and totaled $105,750. See the chart herein for further auction highlights.

Precious metals have been battered lately. Actions by the Fed and a stronger dollar have contributed to the recent weakness. Gold closed today at $1,142 per ounce. The yellow metal hasn't been at this low level since late April of 2010. Silver continues to drop, and has a current Spot of $15.39.

Sharp buyers have been able to acquire a handful of Classic Silver Commems out of weekly online auctions for prices that are below current sight-unseen Bids. A well-known condition rarity, a 1926 Sesquicentennial Half, graded MS66 by NGC, crosses the auction block this week via the Heritage Signature sale in Beverly Hills November 6-7 and 9-10. There are no coins of this issue numerically finer at either grading service, and only 27 in this grade. Another scarce piece offered in the same sale is a Proof 1903 Louisiana Purchase/McKinley Gold Dollar, one of just 100 originally struck, graded PCGS PR63.

Certified Gold Type, clearly affected by Gold Spot, shows a downward trend, and suffering the most are Indian Half Eagles, down in multiple grades for both services. Looking forward, a large number of slightly-better to better date Gold is available in next week's Eric P. Newman Collection Part V auction in New York, a highlight of which is the NGC/CAC MS68★ 1898-S Liberty Head Half Eagle. A coin that can only be described as near perfect, it is tied with three others at this level, and is one of only 16 NGC coins at this grade level across the entire 70 year series.

David Lawrence's weekly auction saw a beautifully struck pop 27 (1 in MS67+) with none finer, 1897 Philly Morgan graded MS67 by PCGS bring in a sum of $8,000. Doing pretty well through a recent Great Collections internet sale was a blast white 1878-S $1 graded MS67 by PCGS taking home a whopping $7,975, this having a pop 28 with 1 finer. Not doing so well through the same auction was a lightly toned 1921 Peace Dollar graded MS65 by PCGS picking up $1,760. This is $40 less than what is being currently offered sight-unseen. Common date MS65 Peace Dollars in NGC slabs are seeing a little downward movement now at a sight-unseen Bid of $91 and ANACS and ICG are now both down to $36 in MS64. Heritage is offering a stunning pop 28 with 1 finer 1924 Philly Dollar graded MS67 by PCGS in their upcoming auction in Houston December 4-8. At least one dealer is after 25-50 of the 1882-CC GSA Dollars at a higher sight-unseen Bid of $210 as long as it is in an original government box with certificate. A couple of the NGC graded GSA Dollars in MS64 are seeing some increases to Bid which can be seen on Page D.

Heritage will look to showcase a beautifully rainbow toned pop 4 with none finer 1937-D Buffalo Nickel graded MS68 by NGC in their upcoming auction in Houston. Also looking to make its way to the auction block is a gorgeous pop 17 with none finer 1913-D Type 1 Nickel graded MS67/CAC by PCGS. A bounty of $25,000 still stands as one dealer tries to lure out a potential seller who may have 1 of the 57 MS65 PCGS 1937-D 3-Legged Buffalo Nickels.

Mercury Dimes take a breather for the most part. However, semi-key 1925 Philies give up $55 in MS65FB and lessen to a Bid of $445 after somewhat unflattering auction results over the weekend. This marks the first time since August 2013 that this piece has sunk below the $500 mark. Demand is strongest for Very Choice and Gem early dated material without Fully Split Bands. Pre-1930s Denver and San Francisco pieces are capturing the most attention and sustaining their Bid.

A rather amazing score in Walking Liberty Halves was a 1943-S piece in Gem. One lucky Bidder grabbed this very nice, lustrous NGC example for a mere $85 at an online auction which is quite astonishing considering that there is solid sight-unseen demand at $180, a level that is 112% higher. A half dozen more Walkers sold shy of Bid with one 1945-S in PCGS MS65 netting a 23% shortfall. Negative activity in Proof Singles from our last report has abated, although a few later date Franklin Proofs in PCGS PR61 step back nearly a tenth. Early Jefferson Nickels are making a name for themselves as Proofs from Gem through Superb Gem find strong support at Bid.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

CERTIFIED COIN DEALER newsletter

*CCDN—a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXIX No. 46 | November 14, 2014 | Single copy price $5.00

Sight-Unseen Weakness Prevalent Mass Auction Activity Overloads Market

What an exciting week it has been within the sight-unseen marketplace — flush with widespread activity, although mostly negative. With over $21 million in certified coins crossing the auction block last week it is no wonder the market is having a hard time absorbing it all. Stack's Bowers realized over $10.5 million in their Baltimore sale which was immediately followed by the Heritage Beverly Hills sale that captured over $10.2 million. The magnitude of lots offered in such a short time has clearly resulted in an oversupply situation, resulting in numerous minus signs throughout most market segments we cover. So far this year, a grand total of over $462 million has been sold through the traditional numismatic auction firms, both live and online. In addition to all of this retail public auction madness, nearly $420K has blindly changed hands through the dealer-to-dealer wholesale trading networks. The majority of sight-unseen trades were for generic material, primarily Gold Type and Silver Dollars. Also included were a number of dated Dollars, Silver Commems, Buffalo Nickels, Walkers and Type. A not so common sight-unseen Bid of $25,000 was hit for a Liberty Seated Half Dollar with Arrows & Rays graded MS65+ by PCGS.

Isabella Quarters in PCGS holders are Bid slightly higher this week in Gem through Superb Gem, along with the Classic Gold $50 Round Panama-Pacific Slugs, also in PCGS holders. Otherwise, Classic Silver Commems endure declines across-the-board, with many coins changing hands at prices that are below prevailing sight-unseen Bids. This can be studied in detail by reviewing the Market column published on the fourth week of each month. Three examples of this practice of leaving money on the table include: an 1933-D Oregon Trail in PCGS MS65 which sold for $205 against a $285 Bid, a 1936 Albany graded PCGS MS66 sold for $282 against a $365 Bid, and a 1925 Fort Vancouver encapsulated as MS64 by NGC at $282 vs. a $300 Bid. High grade Liberty Seated Dollars with Motto see a substantial increase, with MS66 and MS67 specimens in PCGS plastic being hotly chased by at least one aggressive dealer. To date there have been just 34 coins of this Type to achieve these two grades combined at PCGS. $5 Capped Head, Large Diameter Gold Type coins in AU58 and MS60 are also sought, with an average 30% gain across both grading services. Certified Gold Type still suffers from the effects of lower Gold Spot, although two winners are $2½ Libertys in NGC MS64 and PCGS MS65.

Morgan and Peace Dollars are swarmed with minus signs within the majority of Bid columns for PCGS and NGC slabbed cartwheels. Even DMPLs are seeing downward movement in various grades for both services. There are some positives if you look hard enough like 1879-CC Capped Dies are needed at a higher sight-unseen Bid of $6,800 in MS64. A nice blast white 1879-CC Capped Die graded MS64 by NGC just sold at the recent Beverly Hills auction for a whopping $8,225. Proof-Like Morgan Dollars in MS63 are now at a higher Bid of $93 for both PCGS and NGC which can be seen on Supplement Page E. Generic DPL Morgan Dollars graded MS63 in NGC holders are being targeted at a sight-unseen Bid of $130. A gorgeous 1881 Philly $1 graded MS67 by PCGS hammered in $28,200 at the same sale, this having a pop 4 with none finer. A few Peace Dollars did well at recent auction too, for example: a 1923 graded MS67 by PCGS and NGC brought in $4,995 and $2,350 respectively. A Bidding war took place for a pop 14 1928 Peace Dollar graded MS66 by PCGS as the winning Bidder forked over $30,550 to acquire it.

A 1937-D 3-Legged Buffalo graded MS64+ by PCGS picked up a nice chunk of change, realizing $8,815 — a price realized not seen near this level since June when Goldberg sold an example in the same grade and holder and with a CAC sticker for $8,225. A beautiful rainbow toned 1925-D Nickel graded MS66 by NGC took the floor in Beverly Hills and brought home $6,465. 1913 Type 2 Buffs in MS66 PCGS are now at a lower sight-unseen Bid of $635 in addition to the 1913-D Type 2 graded MS65 in PCGS now down to $740 Bid. Pre 1935 Mercury Dimes encountered quite a bit of double-digit turbulence in the sight-unseen market this week. Bid for 1918-D examples in PCGS MS65FB dipped to $9,500, nearly a 30% slip, after lackluster auction results. Two more dates saw declines near 16%, 1930-S and 1919-D, the former of which was graded PCGS MS67 and is one of only two CAC certified with none finer. Other declines are much less severe. Proofs are also coming under pressure and see quite a bit of buckling in all grades reported but more so in Very Choice and better.

Although advances are dwarfed by retreats, common Walkers do make some headway across the Mint State spectrum. Final year 1947 pieces in PCGS slabs capture a 16% gain in Gem and see Bid reach the $100 mark for the first time since late June. Likewise, NGC examples also see a boost, albeit a modest one. Key and semi-key dates have a harder go of things in the higher Mint State grades of Very Choice or better. 1934-S for example sees a new lower Bid for both services fall to an even $2,200. Proof Nickels however buck this week's trend of negativity and show an 11% jump for Superb Gem 1940-41 examples.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Proof... Bids for P/L's are usually much lower than for DMPL's, but command some premium ... non-P/L strikes.

Strong Support For PLUS/CAC Auction Activity Winds Down

Last week's $10.4 million Newman Part V Collection auction by Heritage in New York was quite successful. Taking top lot honors was a 1794 Flowing Hair Dollar graded AU50 by NGC which totaled $470K. In second place was a Brass 1776 Continental Dollar graded MS62 by NGC and brought in $440,625. Another 1776 Continental Dollar, this one made of Pewter, came in third place and was graded NGC MS63, realizing $381,875. All three top lots sport the CAC sticker. See additional NGC highlights herein. Auctions have done quite well so far this year. From the auction houses we cover, the year's total to date is a whopping $461,097,225, with the average weekly auction total at $10,246,605. Dealers are now heading to the 29th annual PCDA Coins & Currency Convention, scheduled to run November 21-23. This show will take place in Rosemont, IL. A handful of regional and local shows around the country are even taking place during the Thanksgiving holiday weekend. Next is the 58th Houston Money Show December 4-7 with an auction by Heritage. In addition to the upcoming action in shows, dealers are stirring things up on the electronic trading networks, purchasing roughly $275K of sight-unseen material in the last week.

Precious metals are making a modest comeback, with Gold closing at $1,191 per ounce, from a low last week of $1,159. The yellow metal now has a separation of only $15 with Platinum, which closed at $1,206. Silver, at $16.13 an ounce today, stands out as one of only a few days in the last couple weeks when the white metal came in over $16. Palladium is down to $767 an ounce. That's quite a fall from over $800 just a few weeks ago. For the second week in a row, the CCDN CMI today at 996.01 is below the 1,000 point baseline established in Jan. of 1990, a level not seen since mid August of 2013.

At least one dealer is after CAC 1893-S Morgan Dollars in MS65 and MS66 and is offering higher sight-unseen Bids of $625,000 and $775,000 to acquire them. Also seeing higher Bid levels is the 1903-S Dollar in MS66+ for both PCGS and NGC, now at $13,800 and $11,700. NGC slabbed 1934-S Peace Dollars in MS64+ and MS65+ have jumped a bit this week. These and the rest of the CAC and Plus graded coins can be seen on Supplemental Pages G, H and I which are published every third week of the month. Heritage hopes to see heads roll when a blast white CAC pop of 19 and none finer, 1923 Philly Dollar graded MS67/CAC by NGC takes center stage in Houston in December.

1913 Philly Type 1 Buffaloes are needed at Bid for PCGS in MS64 through MS67 as NGC slabs are wanted in MS64 to MS66. Both the PCGS and NGC graded 1937-D 3-Legged Buffalo are being targeted in MS63 at a sight-unseen Bid of $3,000. PCGS Plus graded Buffaloes in MS64 are wanted at or near Bid for 1919-D through 1937-D. A gorgeous pop 46 with none finer, 1937 Buff graded PR68 by NGC will take the stage in Houston through Heritage on December 4-7. Also looking to make some noise through the same auction is a nicely minted 1916-D Nickel graded MS65+/CAC by PCGS with a pop 19 and 8 finer, having the CAC sticker.

A quiet week overall in Classic Silver Commems, although coins continue to pass through auctions at levels below Bid. A disappointing result for a Gold $2½ Sesquicentennial graded NGC MS66, realizing just under $5K, impacts Classic Gold Commems this week. This coin has a combined population of 261 in this grade, with just 3 finer at NGC and none finer at PCGS. A notable coin in upcoming auction activity is a PCGS/CAC graded MS66 Hudson Sesquicentennial. There have been 78 coins of this often weakly stuck issue to receive the CAC sticker in this grade, and only 42 total coins finer.

According to a few dealers, while buyers are still being stringent about quality for the grade, certified Mint State Type coins are moving. As an example, an attractive 1874 With Arrows Seated Liberty Half Dollar, graded PCGS/CAC MS63, brought a cool $2,385, nearly 40% over the sight-unseen Bid of $1,450. Gold Type coins take some discounts in the lower Mint State grades of 61 and 62, with $3 Gold Pieces moving the most. In the same vein CAC and Plus graded Gold Type, found on Page H, take downward revisions in line with lower Gold Spot compared to a month ago.

A round of some unenthusiastic auction results cause a couple of declines for Mercs in 65FB and 66FB, with the latter taking a 20% tumble to Bid $32. Full Banded Mercs bearing a "+" designation for both grading services are the darling of dealers' interests with demand at Bid for Very Choice and Gem issues.

Early Walkers are strong with Bid standing sturdy from MS61 through MS64 and are enjoying extra support in NGC from dealers and collectors who are vying for Gem and better examples as well. Walkers sporting a green bean or PCGS+ are seeing massive support at Bid that more than overshadows a pair of small declines. Early Franklin Proof Singles are doing well with demand not flinching one bit for Choice and better examples. For those Halves with Full Bell Lines, sight-unseen activity is vibrant with dealers keen on acquiring first year 1948 and 1948-D pieces with any extra designation such as CAC or "+".

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Thanksgiving Slowdown Houston Money Show Up Next

Dealers are taking a short break for the holiday before getting right back into the swing of things with an auction by Heritage, taking place December 4-5 and 7 at the 58th Houston Money Show. We have listed several of the many highlights from this upcoming sale herein. Considering the Thanksgiving slowdown, dealer-to-dealer sight-unseen trading on the electronic networks is rather high at well over $200K in the last week. Precious metals are relatively stable with Gold at $1,197 an ounce; Silver came in at $16.55; Platinum closed at $1,225; and Palladium settled at $796. Discounting from the last report for NGC slabbed 1941-D Mercs in MS66FB has caught up with their PCGS counterparts as they too take a dive in Bid by 20% to $32 a piece. This same Bid level is seen across many war year examples, although the degree of decline is much less severe. Demand is strong in both services for the lowest Mint State graded semi-key Dimes. Sight-unseen support for Walkers has expanded from earlier dates in Choice through Gem to encompass many dates. For finer grades, NGC is pulling in more dealers willing to pay Bid for all but the earliest dates in MS66 while the finest Superb Gem pieces, especially later Philadelphia dates, are capturing dealers' eyes. Proof Singles are encountering some weakness for Dimes and Quarters. Both PCGS and NGC Proofs overall had a rough time with Cents, Quarters, and Halves seeing minus signs. However, the brunt of the negativity is among Proof Washington Quarters graded by NGC where the water gets choppy in PR61-PR63. Strength here resides within Half Dollar Proofs across most grades and for both grading services with dealers putting up Bid without any sweat.

A gorgeous registry quality 1903 Morgan graded MS67 by PCGS brought in $2,425 in a recent David Lawrence internet auction. The winning Bidder in a past Great Collections sale for an 1885-CC graded MS63 by NGC got a bargain when they only had to hand over $660 for this beauty. This is $50 less than what is being offered sight-unseen. Auction results such as these and many others can be seen in this week's Market column which is published the fourth issue of each month providing useful information not available in any other publication. Gem common date Morgan Dollars graded by PCGS are being offered at discounted levels resulting in lower Bids. 1921 Peace Dollars in PCGS holders are wanted at Bid in MS63 to MS67. Two stunning rainbow toned GSA Morgan Dollars both graded MS67 by NGC with tamper-evident grade sticker affixed to the original black plastic government holder, 1881-CC and 1884-CC, will hope to bring some serious Bidders to Houston. David Lawrence saw a nicely struck pop 72 with 8 finer key 1921-S Buff graded MS65 by PCGS bring in a whopping $6,500 as well as $1,200 for a beautiful 1923 Nickel graded MS66 by PCGS in their recent weekend sale, results of which can be seen in the Market column. Two 1921 Philly Buffaloes, both graded MS66 by PCGS, will be up for grabs in next week's auction in Houston hosted by Heritage.

A few more downward adjustments come the way of Classic Silver Commems this week, led by NGC graded 1934-D Oregon Trail Memorials in MS61 through MS63, and York County Halves in MS67, which took an 11% decline for those coins in NGC slabs. Using this week's Market column, one can see that a 1936 Norfolk Bicentennial graded NGC MS67 realized $305 in a weekly auction against a Bid of $325. No changes to report for Classic Gold Commems, but we do note sight-unseen support for nearly every issue in MS65 and MS66. Only two mild declines are found throughout Mint State Type this week, with Braided Hair Half Cents in MS63 and NGC graded Seated Liberty Dimes with Legend in MS63 suffering minor setbacks. Type 1 and Type 3 Gold Dollars also see a small move downward in MS61. A conditionally rare 1856-S Seated Liberty Quarter certified PCGS MS64 crosses the auction block next week. This is the sole MS64 graded coin of this low mintage and heavily circulated issue, with only one finer, an MS65, at PCGS; NGC has not graded an example of this coin higher than MS63, a testament to its rarity in Mint State.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades well near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (month old); "**t**" – Trade during the most recent month; **lm** – Lowest asking price appearing *last month* "**lt**" Trade appearing *last* month; "**ot**" Trade older than 2 months; a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

Final Shows, Auctions For 2014 Precious Metals Rebound

Many dealers are now in Texas attending the 58th Houston Money Show, December 4-6. Heritage will host an auction at the show running December 4-6 & 7. After a short breather, the Las Vegas Coin and Currency Show will take place December 12-14. Bonhams will hold a sale December 16 in New York. Then, it's back to Vegas for the PCGS Members Only show at the Venetian Hotel and Casino December 17-20 where Legend will have a sale. We have listed several highlights from both the Bonhams and the Legend auctions herein. Precious metals are on a bit of an upswing from about a month ago, as Gold was down to $1,142 November 6, and is up to $1,208 today. Silver was $15.39 an ounce, and today stands at $16.52, and Platinum was at $1,197 and is now a stronger $1,246 per ounce. The Thanksgiving slowdown has resulted in a major decline in activity on the sight-unseen dealer-to-dealer electronic trading networks, with a total of just over $30K in transactions over the last week.

Great Collections saw a greenish toned 1878-CC Morgan Dollar graded MS66 by PCGS rack up $4,345 at a recent auction as an MS65 example, also in a PCGS holder, took home $1,470 through a Stack's Bowers sale. In a David Lawrence weekly sale a gorgeous 1885-CC Morgan graded MS66 by PCGS saw the winning Bidder hand over $2,200 for this cartwheel. Speaking of the 1885-CC, at least one dealer is after ANACS graded issues in MS63 up to MS65 and has raised sight-unseen Bid to acquire them. 1880-CC, 1882-CC and 1885-CC NGC graded GSA Dollars are being targeted at Bid in MS64, as 1883-CC NGC graded GSA Morgan Dollars are down a bit in MS65 and MS66 which can be seen on Page D. Bidding through an online auction for an 1879-CC graded MS63 by PCGS came up $75 short of sight-unseen Bid. Common date Morgan Dollars for both PCGS and NGC are seeing lower sight-unseen Bids in MS63 and MS65 as well as Peace Dollars in MS65 to MS66 for NGC encapsulated examples. A nicely golden toned 1937 Philly Buffalo graded MS67 by NGC brought in $182 in a recent Stack's Bowers auction. Also doing well at auction was a 1913-S Type 1 Nickel graded MS64 by PCGS picking up $205 which is $35 more than what is being offered sight-unseen. PCGS MS67 1936 Buffs have fallen $5 to a sight-unseen Bid of $435 due to poor auction prices realized.

A well matched 1938 Oregon PDS Set, graded PCGS MS66, did not fare well in a recent online offering, and as a result takes a steep decline. A coin with a PCGS population of just 39, the 1934 Boone Bicentennial in MS67 drops, as one is available for wholesale purchase at a significant discount. A 1952 Washington-Carver, slabbed PCGS/CAC MS66, left some money on the table by bringing $41 less than prevailing sight-unseen Bid in auction. An appealing PCGS/CAC MS67 Long Island Tercentenary, with a CAC approved population of 25, goes to auction the week after next.

PCGS certified Barber Quarters in MS66 take a 5% step back this week after a deeply toned specimen realized a level below Bid. Type One Gold Dollars in Gem from both PCGS and NGC adjust down nearly 8%. In Proof Type, Liberty Nickels in Very Choice take a small $10 haircut. A substantial offering of both Mint State and Proof Barber Dimes hits the auction block in Las Vegas, with many finest known's and wonderfully toned coins available, including a stunning 1894 graded PCGS MS68, sole finest of that date.

Going back one year, 1929-S Winged Liberties in PCGS MS67 experience a less than superb 13% fall due to online auction weakness. Higher graded material seems to be subject to a little turbulence with a couple later years backtracking Bid by a few dollars. At the upcoming Legend auction there will be a stunningly beautiful 1916 Merc in PCGS MS67FB CAC. As one of just 59 with a green bean and a PCGS pop of 115, with 22 finer, this Dime exhibiting rainbow toning will surely turn some heads. Negative activity is scant as Walkers maintain robustness with stable sight-unseen Bidding in MS63-MS65 for both grading services. NGC Halves enjoy even more demand with additional support for most dates in MS66.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 550,000 coins with a market value over $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $340,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

CAC®

"Because Confidence is Priceless"

The CAC sticker helps identify a quality coin.

CERTIFIED COIN DEALER newsletter

Sight-Unseen Market Continues South Twenty-Five Weeks Of Declines

The holiday season is in full swing, and so is the final run of auctions and shows for the year. Spirits are generally high as the Houston Money Show, held December 4-6, was quite a success, with the Heritage auction bringing in a strong $9.3 million. Adding to the positive energy is the comeback of precious metals. For about the last month, Gold has been in the high $1,100 range. Now, the yellow metal is at $1,225 per ounce. Silver, too, is up, climbing over the past several weeks from the mid $15 level to above $17 an ounce. Platinum has escalated from the low $1,200s to the $1,240s. Of course, this is good news for the numismatic caravan to finish off 2014, ideally on a good note to prepare for the January FUN Show, kicking off the new year. While sight-unseen trades over the electronic dealer-to-dealer networks are still fairly low, at just over $90K in the last week, things have picked up three-fold from our previous week's total. This year, the total sight-unseen trades are at $6.3 million so far. Last year, over the same time frame of January 1 to December 11, total trades garnered $13.3 million. CNBC just published a story on the best investments for 2014. Coming in first place were classic cars, which gave a return of 25% over a 12 month period. Interestingly, they report that rare coins came in second place with a 10% rate of return. In the sight-unseen market, during the same time frame, our CCDN Coin Market Index is down by 13 points. It's not all bad news, however, as several segments are actually up from a year ago, including: Gold Commems, up 9.25 points; Mint State Type, up 6.07 points; and Proof Gold Type, up 12.48 points. Since June 20, we have recorded twenty-five consecutive weeks of minus signs outnumbering plus signs. The last three weeks have had no plus signs at all.

High grade MS67 specimens of multiple issues of Classic Silver Commems see lower Bid this week, led by the Bridgeport and Fort Vancouver Centennials, and also including Connecticut Tercentenary, B.T. Washington Memorial, Wisconsin Centennial, and Grant Memorials. 1915-S Pan-Pac Halves absorb losses in MS64 through MS67 for those coins in NGC slabs, as a handful of toned examples had less than stellar prices realized at recent public retail auctions. In Classic Gold, both the 1916 and 1917 McKinley Gold Dollars retreat in MS67, with the former hammering for $2,000 at auction and the latter for $2,820, both in PCGS holders.

Mint State Type receives some downward pressure after last week's auction activity with over two dozen issues dropping, including some scarcer Types. Among these is an 1807 Draped Bust Dime graded PCGS MS64, population 20, which realized $14,690, triggering an 11% decrease of Bid. Conversely, a PCGS MS63 1873 With Arrows Liberty Seated Half Dollar, a coin with a mintage of over 1.8 million pieces, brought $4,405, well over sight-seen Bid. In certified Gold, Type 2 $20 Libs decline in MS61 through MS63 in PCGS holders and in MS61 in NGC holders. An 1853 $5 Liberty, graded MS64+ by PCGS, realized a healthy $17,040 when offered at public auction last week.

Several Morgans left money on the table as they passed through online auctions this week, including two MS62 examples as a PCGS 1887-S hammered for $138 against a $160 sight-unseen Bid and an 1891 Philly brought $68 vs. a $78 blind Bid. It remains to be seen if the continued recovery in Silver Spot will be reflected in the market for certified generic Silver Dollars, as these are regularly traded sight-unseen in volume. Two noteworthy Proof Like Morgan Dollars come to auction next week: an 1883-O graded PCGS/CAC MS66+ PL, one of just two coins to receive the Plus designation, and a PCGS/CAC 1891-CC MS65PL, with a PCGS population of 17 with a mere two finer.

For Walking Liberty Halves, it may be a story of minus signs, but the drops this week are anything but serious. PCGS slabbed 1935-D Halves took the largest fall with a 9% slide. Most of the downward activity affects strictly common material in the MS62 column. One rapid departure was a 1939-D graded NGC MS65 which sold online for a mere $88 while elsewhere dealers are readily handing over 17% more regardless of what the coin looks like. For Proofs, Walkers take only a slight 6% dip in PR66 for 1936 examples. Franklin Halves have a little more to trudge through as a few NGC dates get stymied in PR66 and PR67. This is also the case for Franklins in Mint State where the same highest two grades (with and without Full Bell Lines) get a little shaky. Perhaps the hardest drop of the week came for 1926-D Buffaloes. This Nickel has a combined pop of 135 with only 45 finer and it is about three times rarer to find one in an NGC slab, with only 32 graded, than PCGS with 103. Nevertheless, NGC graded examples took a hard 35% blow after shocking results from an online auction. Very Choice Buffaloes, on the other hand, is an area where the market is doing well with plentiful activity at Bid for many dates.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

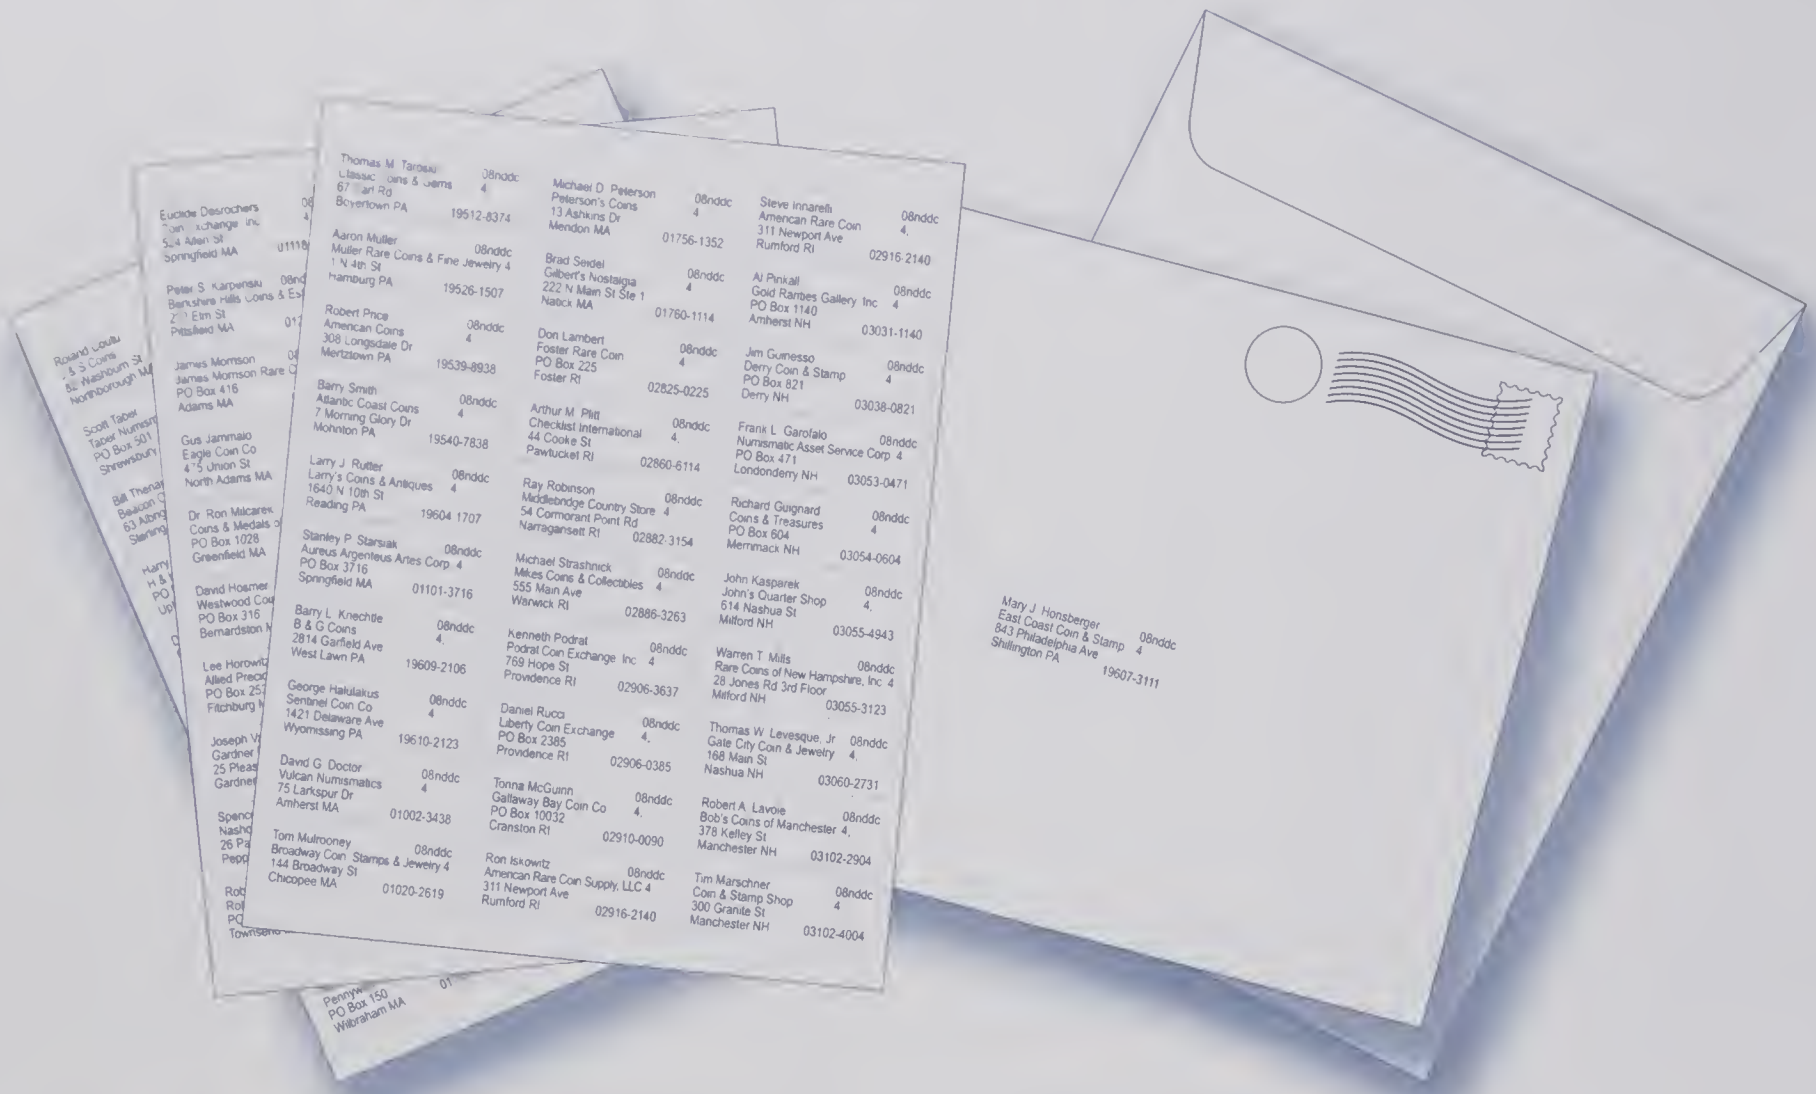
Need to Mail?



Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2014 Numismatic Dealer Directory**™ are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only $385 — well below the mailing industry standard of $95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and $25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2014 Numismatic Dealer Directory.

I understand that my $385 fee entitles me to only one usage of these addresses. _____

CERTIFIED COIN DEALER newsletter

*CCDN—a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXIX No. 51 | December 19, 2014 | Single copy price $5.00

Looking Forward, Bullish Or Bearish? Last Issue Of 2014 — Happy Holidays!

This is the last issue of the CCDN for 2014. Have a safe, healthy and happy holiday season. Our next issue will be published January 2, 2015.

Even though the sight-unseen market is slowing down this holiday season, optimism is still fairly high. Gas prices are lower across the country, which makes for less expensive trips to the remaining auctions and shows of the year. Sight-unseen trading over the dealer-to-dealer electronic networks is picking up somewhat, with over $180K in transactions taking place in the last week. Precious metals are in a so-so position currently, after showing some real strength recently, with Gold now at $1,195; Silver closing at $15.89; Platinum landing on $1,197; and Palladium at $792. Bonhams completed an auction December 16 in New York which featured what is thought to be the first struck MCMVII (1907) $20 piece. This Sans Serif, Ultra High Relief $20 Saint-Gaudens beauty graded PR58 by PCGS had a pre-sale high estimate of $1.5 million, yet failed to meet reserve and sell. The auction totaled approximately $700K and had two lots tie for top price honors, bringing in $44,460 each. The first of the two winners to cross the block was an 1802 Draped Bust Dollar, graded MS64 by NGC, followed by an 1851 Humbert $50 Slug, Reeded Edge, .887 THOUS., Target Reverse. Coming in third place at $19,890 was a 1902 six-coin Proof Set (Cent through Dollar) with two NGC examples and four PCGS slabs, and a grade range of PR65-PR66.

Negative activity with Mercury Dimes is quite light with only a duo of minuses for a couple of earlier semi-key dates. Despite being Superb Gem specimens, some rather weak selling occurred during online auctions where a handful of Denver minted FB examples sold short of sight-unseen Bid by nearly 10%. Proofs also saw a few drops with the most significant being a 1939 piece in PCGS PR66 which took a 12% spill. 1939 is shaping up to be a bit of a troublesome date as San Francisco minted Walkers take one to the chin in Gem during an internet sale selling for 20% below sight-unseen Bid. Some common dates received even more punishment as 1942 and 1945 examples in Very Choice sold for only $36 and $39 respectively while dealers are offering $50 for any slabbed MS64 without looking, constituting a 25% discrepancy. Beyond this, the sight-unseen market is buzzing with activity for earlier Halves pre-1930s in MS61-MS65.

A total of 34 different Classic Silver Commems across various grades and both grading services changed hands at a level that is below sight-unseen Bid. Of these, all but one are public auction results with the other a wholesale offer. As historically happens with this series, it seems that we are currently in a down cycle during which these coins become a value relative to their overall supply. A spectacular Lafayette Dollar, graded MS67 by PCGS and the only example stickered by CAC of the combined 16 graded MS67 is up for grabs at auction to kick off the new year. Similarly scarce, a PCGS/CAC MS67 1922 Grant With Star, one of only two CAC'ed of just 15 certified at this level thus far and none finer is also set to cross the auction block in Florida early next month.

A popular Type coin, an 1875-S Twenty Cent Piece in PCGS MS63, brought $947 in a recent online auction, which is 12% below the current Bid. Another popular and plentiful Type coin, an 1853 With Arrows Liberty Seated Dime certified by NGC as an MS63, takes a step back to $400 Bid. In Type Gold, Three Dollar Indians in Choice drop 5% as they are offered for a discount on the wholesale market. While there will be no shortage of excellent Type coins available in the Sunshine State, a few highlights include a conditionally rare 1861-S Liberty Seated Dime PCGS/CAC MS66, an awesomely target-toned 1920 Standing Liberty Quarter PCGS/CAC MS67+, and an 1839 Capped Bust Half Dollar PCGS/CAC MS65.

1884-S, 1889-CC and 1893-S Morgan Dollars with the CAC designation in MS64 through MS66 are in demand at current sight-unseen Bids. PCGS Plus Peace Dollars in MS65 for 1927 to 1935-S are seeing strong support at Bid. These and the rest of the CAC and Plus graded material can be seen on Supplemental Pages G, H and I published the third week of every month. A holiday discount came to the winning Bidder of a nicely toned 1921-D Morgan Dollar graded MS65 by NGC at a recent Great Collections sale as they paid $65 less than what is being offered sight-unseen. Common date MS65 Morgan Dollars in PCGS and NGC slabs are being offered at lower levels resulting in declining sight-unseen Bids of $110 and $104 as dealers look to attract some late season shoppers. Peace Dollars are quiet this week with only one minus sign to show for an MS61 1934 Philly in a PCGS holder now at a sight-unseen Bid of $105.

A 1920-S Buffalo Nickel graded MS65 by PCGS has dropped almost 16% to a sight-unseen Bid of $11,100. This is due to a lack of supporting sight-unseen Bids and poor auction outings for this pop 19 coin. PCGS Plus Buffaloes in MS64 are seeing demand at Bid. Green beaned 1938-D/S Nickels in MS64 and MS65 have back tracked a little, now at sight-unseen Bids of $90 and $95.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest network reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ~~450,000~~ 550,000 coins with a market value over ~~$2.0~~ $2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~$300,000,000~~ $340,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.
